- No up-front payment and a fixed monthly repayment plan for peace of mind

APPLY FOR YOUR **0%** FINANCE PACKAGE NOW
CALL **01142 576 200** OR EMAIL POWERSTAR AT **INFO@POWERSTAR.COM**

If our interest free finance package is not right for your business we offer a range of finance options to suit your business needs.

ENERGY PERFORMANCE CONTRACT (EPC)

- An EPC is a partnership between you and Powerstar which allows you to improve the energy efficiency of your facility with no up-front investment
- The contract guarantees that the energy savings generated from the Powerstar system pay for the project
- Flexible agreements can be arranged using 80%-100% of the energy savings, over a 3-7 year period
- After 12 months the savings are verified; if they are below the guaranteed savings, Powerstar will pay the difference in one lump sum

RENTAL OPTIONS

- No capital expenditure or finance agreement is required
- You can rent the system for 12 months – paying 20% of the project cost in 12 equal instalments
- At the end of the contract you can purchase the Powerstar system at the remaining 80% price, use the savings to fund the balance with an energy performance contract or return the system

HIRE PURCHASE & LEASING CONTRACT

- Flexible hire purchase and leasing options are available
- 4.5% flat interest rate (indicative)
- Fixed repayments can be set so that the energy savings are greater than the monthly repayments
- Under hire purchase agreements, you own the Powerstar system at the end of the agreement
- With an operating lease there is no impact on debt capacity and finance is off balance sheet
