

KPMG – Larnaca Millenium Lion House

INTRODUCTION

KPMG is a global network of professional firms providing audit, tax and advisory services. It currently employs over 174,000 people internationally.

KPMG Cyprus have more than 750 professionals in 6 locations working to deliver value and provide their clients with the highest-quality service.

THE CHALLENGE

KPMG Cyprus, following the corporate social responsibility (CSR) guidelines of KPMG international, are continuously educating and supporting people in making sustainable decisions and adopting responsible consumption practices both at work and at home.

This approach led them to look at ways of reducing their own electricity consumption and lowering their carbon footprint.

THE SOLUTION

With previous successful installations providing savings above those that were guaranteed at the Nicosia and Limassol facilities, KPMG turned again to Powerstar to look at their Larnaca site.

Following a site evaluation the Powerstar team recommended the installation of a 144kVA voltage optimisation system to reduce the incoming site voltage.

BENEFITS

Powerstar guaranteed savings of **8.9%** on electrical consumption.

Following analysis of the consumption pre and post installation the KPMG Larnaca site is saving **12.5%** which equates to an annual CO₂ reduction of 20.5 tonnes.

KEY FIGURES

- ✔ **Guaranteed kW savings: 8.9%**
- ✔ **Actual Annual kW savings: 12.5%**
- ✔ **Annual CO₂ reduction: 20.5 tonnes**
